

## OCE Discovery 2010

Connect with Kangaroo at the Ontario Centres of Excellence's annual Discovery '10 show. This innovation and commercialization trade exhibition brings together researchers, inventors, entrepreneurs and business leaders to share their ideas and advancements in cutting-edge technology.

This year, we will be exhibiting a range of products that were developed at Kangaroo for our clients and partners, including: DuoCheck, a drug administration EMR device; dotLab™ System, a bio-sensor device used in laboratory diagnostics, and the Certo homogenizer prototype platform. Additionally, we will be launching the BeFocused productivity and communications system for group collaboration.

The event will be taking place at the Metro Toronto Convention Centre in Toronto, Ontario from May 17th-18th.
